**KEMCO MANUFACTURING SELECTS MISSOURI ENTERPRISE
FOR CONTINUOUS IMPROVEMENT PROJECT**

St. Louis, Missouri – June 21, 2006 – Kemco Manufacturing Company has selected Missouri Enterprise to provide a broad process improvement program to optimize the flow of information and material at the company’s facility and strengthen the company’s commitment to continuous improvement. The project will include both Lean Enterprise training and implementation support.

The company provides a full range manufacturing capabilities, engineering support services and technology solutions to customers in the aerospace industry.
