**KUPFERLE FOUNDRY COMPANY SELECTS MISSOURI ENTERPRISE
FOR CONTINUOUS IMPROVEMENT PROJECT**

St. Louis, Missouri – November 18, 2005 – Kupferle Foundry Company has selected Missouri Enterprise to provide a continuous manufacturing improvement program to improve the flow of information and material at the company’s facility. The project will include both an introduction to Lean Enterprise practices and to Value Stream Mapping.

Kupferle Foundry, one of St. Louis’ oldest companies, is a leading manufacturer of products used to maintain and monitor water quality within municipal water systems.
