**WILCORP INDUSTRIES EARNS
QUALITY MANAGEMENT SYSTEM REGISTRATION**

Marshfield, Missouri, January 3, 2008 – Wilcorp Industries of Marshfield and Billings has recently been registered to the ISO 9001:2000 standard, according to company Plant Manager Randy Van Landuyt.

Wilcorp Industries is a 21-year old company that specializes in packaging sealants and adhesives.

ISO 9001:2000 registration helps both product and service oriented organizations achieve standards of quality that are recognized and respected throughout the world.

To receive ISO 9001:2000 registration, Wilcorp Industries had to meet a set of comprehensive quality system requirements and pass an audit by an independent, third party firm.

During the registration process, Missouri Enterprise worked with company management to provide training, documentation preparation and implementation assistance, auditing and on-site support.

Van Landuyt praised company employees for their efforts, saying, “We are proud of this achievement and the way our staff performed during the preparation and the audit.”

He also said working with Missouri Enterprise made the process much more manageable. “They helped us understand the registration process, so we were able to avoid false starts, unnecessary work and delays,” he said.

-more-

Missouri Enterprise is an organization composed of experienced manufacturing and business management professionals who provide business and technical assistance to help Missouri companies succeed. It manages the Manufacturing Extension Partnership in Missouri and one of the state's Innovation Centers.
